

# “EVERY WOMAN, EVERY CHILD” : A MIDWIFERY PERSPECTIVE

We reviewed all government commitments in support of the “Every Woman, Every Child” campaign and identified action statements along the continuum of care through pregnancy, childbirth and the postpartum/postnatal period. We present those that fall within the scope of practice of midwifery below; this data is made available in support of the International Day of the Midwife.

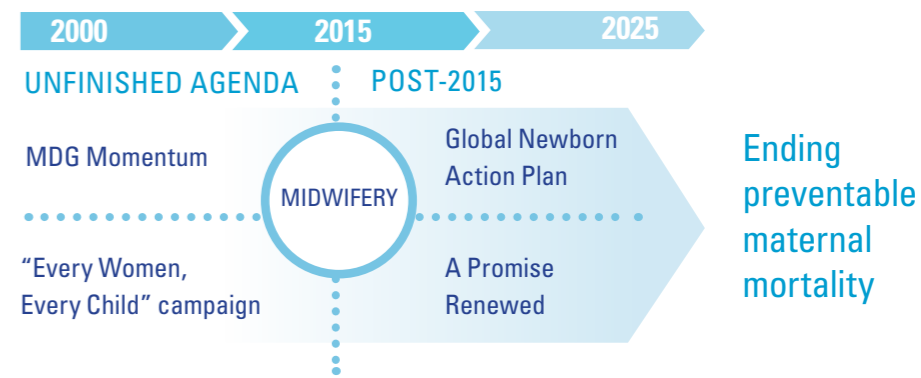

## OF THESE ACTION STATEMENTS:

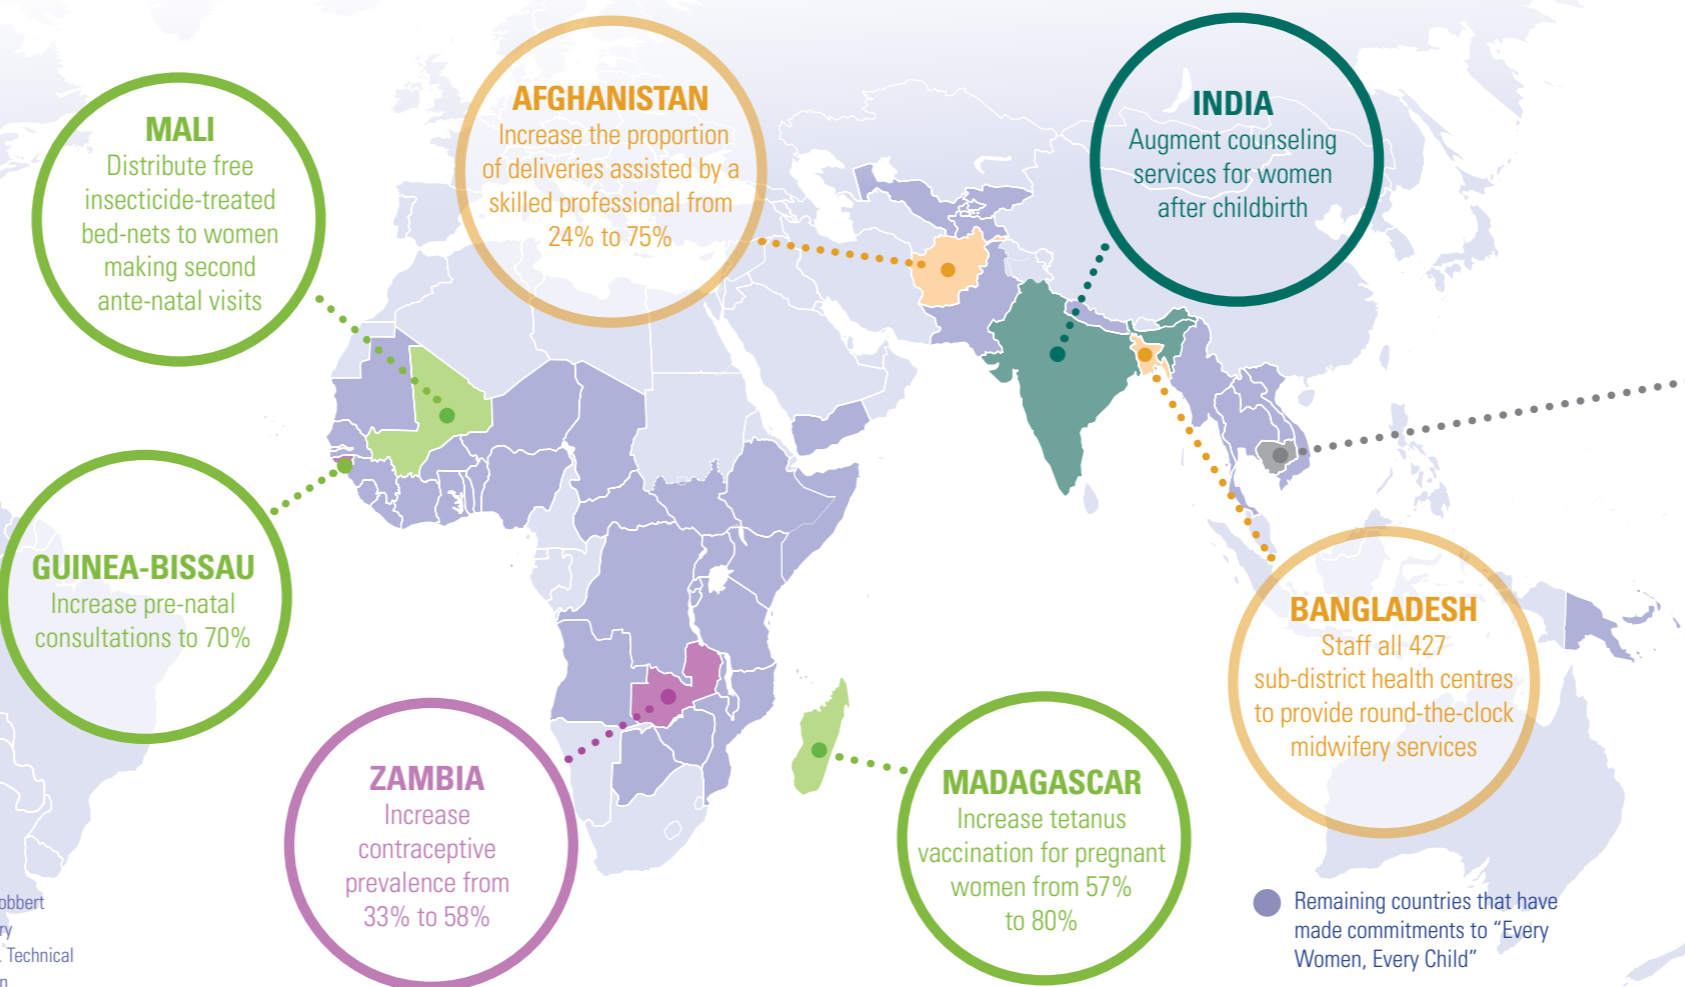

## COUNTRIES MAKING COMMITMENTS TO TRAIN ADDITIONAL MIDWIVES:

## MIDWIFERY AT THE CORE OF THE MDG MOMENTUM AND POST-2015 AGENDA

AMONG THE 49 LOWEST-INCOME COUNTRIES IN THE WORLD, 46 HAVE MADE COMMITMENTS TO THE “EVERY WOMAN, EVERY CHILD” CAMPAIGN. THE MAJORITY OF THE INDIVIDUAL ACTION STATEMENTS ARE DEPENDENT ON A HEALTH WORKER, IN PARTICULAR A MIDWIFE, TO BE ACHIEVED.

## CASE STUDY: CAMBODIA

Cambodia has made commitments that target a wide range of midwifery services, thereby providing a good example of how action statements can cover the whole continuum of care. Cambodia’s commitments aspire to increase:
